JOB VACANCY
Short-term assignment
Developer of Virtual Reality Tutorial Videos

WHO WE ARE

SAFE (Security and Freedom for Europe) is a not-for-profit foundation focused on promoting high-impact activities in the security, defence, rule of law, and fundamental rights sectors with a focus on Central Europe, the Western Balkans, North Africa, the Middle East and Asia. SAFE's core activities encompass CBRN risk mitigation, the fight against organised crime, asset recovery, counterterrorism, as well as innovative technologies for law enforcement, with a specific focus on Virtual and Extended Reality (VR, XR).

Composed by specialists who have been working in the relevant sectors for over 25 years, SAFE is building a multidisciplinary hub of in-house highly technical experts to promote security and freedom throughout the world, disrupting the dichotomy that increased security is incompatible with the concept of liberty. In the frame of its activities, SAFE can count on the sectorial and geographical experience of its project group as well as on a pool of partners that include high-level universities, specialised industries, research centers as well as national and local Law Enforcement Agencies.

JOB DESCRIPTION

SAFE is looking to fill a short-term position to design the script and record video tutorials for the usage of a Virtual Reality training platform currently being designed as part of EU-funded project VERTIgO[1]. The selected individual will be working alongside the VERTIgO Project Manager from SAFE for the design and conceptualisation of the tutorials.

Post location: Remote, with at least 5 days over the course of the contract of presence on-site (Soave, Verona)
Contract starting date: As soon as possible
Duration of the contract: Until 28 February 2024 – possible extension based on project needs.
Salary (gross): Lump sum contract between EUR 7.000 – 8.000, based on experience.

---

[1] "Virtual Enhanced Reality for Interoperable Training of civilian and military Operators" – EDIDP-SVTE-2020-047-VERTIgO: https://cbrn-vertigo.eu/

TASKS

- Become familiar with VERTIgO's VR platform and its working mechanisms.
- Develop the script for (at least) three video tutorials on usage of the VR Platform. The script will be in English.
- Record (at least) three video tutorials on usage of the VR Platform. The videos will be recorded in English.
- Interact with VERTIgO project partners, under the coordination of the SAFE Project Manager, to collect feedback on the video tutorials.
- Integrate relevant feedback in the delivery of the final tutorials.

REQUIRED EXPERIENCE

- Bachelor's degree in communication, IT or other related fields. Master's degree in computing related fields is considered an asset.
- Proven prior experience in the development of videos in English. Previous development of at least two video-tutorials.
- Proven prior experience with VR softwares and platforms, in particular with Unity.
- Must be able to compose engaging content in English.
- Works well independently and in a team.
- Excellent time management skills and multitasking.
- Must be resourceful and take initiative even when given minimal direction.
- English and Italian proficiency. Knowledge of French is an asset. Proficiency in spoken English is **mandatory.**

HOW TO APPLY:

To apply for this position, please send your updated CV and Motivational Letter to federica@safe-europe.eu by 17 November 2023 close of business. In the Motivational Letter, please include previous examples of video tutorials you have recorded. Only shortlisted candidates will be contacted. The selection process will comprise of a test and a final interview.
